

**SAFETY RECALL K08
WIRELESS IGNITION NODE RECEIVER**

Dear: (Name)

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Chrysler has decided that a defect, which relates to motor vehicle safety, exists in some **2010 model year Chrysler 300, Dodge Challenger/Charger, Jeep® Grand Cherokee/Commander and Ram trucks equipped with an automatic transmission.**

The problem is... The **Wireless Ignition Node (WIN) receiver on your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx) may experience a condition where the Frequency Operated Button Integrated Key (FOBIK) may be removed prior to placing the transmission gear shift lever in the "PARK" position. This could result in unintended vehicle movement and cause a crash without warning.**

What your dealer will do... Chrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will inspect and if necessary replace the WIN receiver and reprogram all remote keyless entry transmitters. The inspection will take less than ½ hour to complete. An additional hour will be required if the WIN requires replacement. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... Simply contact your Chrysler, Jeep, or Dodge dealer right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. **Please bring this letter and all remote keyless entry transmitters (FOBIK) for the vehicle with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact Chrysler at 1-800-853-1403.
