### Re: SE5 Clutch Sticking Engaged

Dear Can-Am™ MY2010 Spyder Roadster Owner,

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act, the Canada Motor Vehicle Safety Act and other applicable laws. Bombardier Recreational Products Inc. and BRP US Inc. ("BRP") have decided that a defect exists on certain Can-Am Spyder Roadster RS SE5 and RT SE5 models and are conducting a voluntary safety recall.

#### What is the potential problem?

When bringing a vehicle equipped with the SE5 semi-automatic transmission to a full stop, the clutch may remain engaged stalling the engine. Once the engine is stalled, it could be impossible to re-start and the rear wheel could be blocked. If this happens, it may be impracticable to push the vehicle off the roadway increasing the risk of a crash possibly resulting in injury or death.

#### What should you do?

Call an authorized BRP Can-Am Spyder Roadster dealer and make an appointment to have your vehicle repaired. We will update the centrifugal clutch assembly with new components. *The dealer will perform this work at no charge to you.*

#### What to do if you feel this notice is an error?

This notice was mailed to you according to the most current information we have available. If you no longer own this vehicle or some information in this notice is incorrect, please contact BRP at your earliest convenience.

#### For US residents only

If you believe that the dealer or BRP has failed or is unable to remedy the defect within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue S.E. Washington, D.C. 20590, or call the toll free Auto Safety Hot Line at 1-888-327-4236 (TTY: 1-800-424-9153), or go to <http://www.safercar.gov>.

#### For Canadian residents only
