**Re: Defect Information Report – Supplemental Report No. 6
10V-339, 10C-4, EPA07 DD13 and DD15 High Pressure Fuel Pump**

Mr. Smith,

In accordance with Part 573 of Title 49 of the Code of Federal Regulations, Daimler Trucks North America LLC herewith submits supplemental defect information and a representative copy of letters sent to 4,468 vehicle owners on April 1, 2011. The remaining owners will be notified as parts become available.

(c) (10) Copy of notification sent to 4,468 owners on April 1, 2011 is attached.

Please contact me if you have any questions.

Sincerely yours,

Nasser Zamani

**April 2011
REVISED NOTICE**

**Subject: Safety Recall 10C4 –
EPA07 DD13 and DD15 High Pressure Fuel Pump**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. This notice is also sent in accordance with the Canadian Motor Vehicles Safety Act.

Daimler Trucks has decided that a defect which relates to motor vehicle safety exists in certain model year 2009 through 2011 Freightliner Cascadia, Century, Columbia, Coronado, M2, and Western Star 4900 heavy trucks manufactured from February 19, 2009 through July 9, 2010, equipped with specific DD13 and DD15 engines assembled with a Bosch high pressure fuel pump element.

Detroit Diesel Corporation has determined that some certified EPA07 DD13 and DD15 engines may have high pressure fuel pump elements that were made incorrectly and could potentially crack. These high pressure fuel pump elements will be replaced. This will prevent fuel leaks and customer dissatisfaction.

Please contact a Detroit Diesel Authorized Repair Facility to arrange to have the Recall performed and to ensure that parts are available. To locate an authorized facility, search online at www.detroitdiesel.com/supportnetwork/. The Recall will take approximately **6.4** hours for **DD13** engines and **5.6** hours for **DD15** engines and will be performed at no charge to you.

IMPORTANT: When the Recall has been completed, please ensure that a label has been affixed to your vehicle referencing **10C4**.

If you do not own the unit that corresponds to the identification number(s) which appears on the Recall Notification, please return the notification with any information you can furnish that will assist us in locating the present owner. If you have leased this vehicle, Federal law requires that you forward this notice to the lessee within ten days. If you are a subsequent stage manufacturer, Federal law requires that you forward this notice to your distributors and retail outlets within five working days. If you have paid to have this recall condition corrected prior to this notice, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall. For more information on this, contact Warranty Administration at Detroit Diesel Corporation, 13400 Outer Drive West, Detroit, MI 48239 or call (313) 592-3708.

If you have questions about this Recall, please contact the Detroit Diesel Customer Support Center, 13400 Outer Drive West, Detroit, MI 48239, or call (313) 592-5800 between **8:00 a.m. to 7:00 p.m. Monday through Friday and 9:00 a.m. to 3:00 p.m. on Saturday Eastern Standard Time**. If you are not able to have the defect remedied without charge and within a reasonable time, which is not longer than 60 days after you tender the vehicle for repair, you may wish to submit a complaint to Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the Vehicle Safety Hotline at (888) 327-4236 (TTY: 800-424-9153); or to <http://www.safercar.gov>. In Canada, if after contacting your dealer and/or Manufacturer Customer Service you have additional questions with regard to this recall, you may contact Transport Canada - Road Safety, 80 rue Noël, Gatineau, Quebec J8Z 0A1, or call 1-800-333-0510.

We regret any inconvenience this action may cause but feel certain you understand our interest in motor vehicle safety.
