

Safety Recall Notice

Dear Customer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act and is important for your safety.

Reason for This Recall

Dutchmen Manufacturing, Inc. (Dutchmen) has decided that certain model year 2011 Dutchmen, Coleman, and FourWinds brand travel trailers, manufactured by Dutchmen, fail to comply with the requirements of part 567, "Certification."

The vehicles subject to this recall campaign were manufactured with the incorrect information on the Federal Identification Tag. The label lists the wrong gross axle weight rating (GAWR). The GAWR was listed as 6400 lbs on the label and should have been 3500 lbs. A consumer could overload the trailer, which could result in a loss of vehicle control and result in personal or property damage.

What We Will Do

Dutchmen has enclosed the corrected labels to remedy the situation.

What You Should Do

At your earliest convenience, apply the new Federal Identification Label over top of the existing label. If you require assistance installing the labels, please make an appointment with your dealer and bring the unit to the dealership and they will install the labels at no cost to you.
