The brake pedal may have been manufactured with a missing weld. This condition may lead to loss of brakes during operation without warning, possibly resulting in a crash. **DO NOT USE THIS VEHICLE UNTIL THE BRAKE PEDAL IS INSPECTED.**

Club Car, in cooperation with the National Highway Traffic Safety Administration, has initiated a recall to inspect the brake pedal for the weld. Please contact any authorized Club Car LSV dealer to arrange for the inspection. The dealer will inspect the brake pedal at no cost to you. This inspection should take less than 5 minutes to complete. If the weld is not present, the pedal will be replaced at no cost to you. Your nearest dealer has been identified below. Additional dealers may be located on [www.clubcar.com](http://www.clubcar.com).
