Dear JAG Mobile Solutions trailer owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS VOLUNTARY RECALL

JAG Mobile Solutions Inc based in Howe Indiana has decided that a defect which relates to motor vehicle safety exists in certain model trailers manufactured in the model years 2006 through 2011. This potential problem exists only in Porta-Lisa model vehicles with tongue to rear of box measurements of 16' and less. Some of these units may have a material thickness in the tongue assembly that is out of tolerance with current engineering specifications. This condition could potentially cause the tongue assembly to fatigue. This fatigue could manifest itself in the form of a crack causing an unsafe and dangerous situation while towing, increasing the risk of a crash.

WHAT WE WILL DO

JAG Mobile Solutions Inc will provide means to inspect your unit(s) at your facility to establish the material composition. Should it be determined that there is a required enhancement, JAG Mobile Solutions will provide and install a pre engineered reinforcement assembly to your trailer(s) at no cost to you.

WHAT YOU SHOULD DO
