

IMPORTANT RECALL INFORMATION

Dear Valued Fleetwood Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Fleetwood RV, Inc., has decided that a defect which relates to motor vehicle safety exists in certain vehicles it manufactured equipped with Atwood ranges. This decision was based on information provided by the Atwood Corporation.

Fleetwood RV, Inc., has been advised by the Atwood Corporation that certain Atwood ranges installed as original equipment in certain Fleetwood recreational vehicles may contain a defect that relates to motor vehicle safety.

The ranges may contain a small fracture within the line delivering gas to the oven cavity burner. Such a fracture has a potential to leak and lead to an unexpected build up of gas. This condition can lead to a fire or explosion, and poses an asphyxiation risk.

On the basis of Atwood's determination, Fleetwood RV, Inc., decided that a safety defect, which relates to motor vehicle safety, exists in certain recreational vehicles equipped with the identified Atwood ranges. Therefore Fleetwood RV, Inc., has submitted a Defect Information Report to the National Highway Traffic Safety Administration pursuant to 49 CFR Part 573 of the code of Federal Regulations.

Federal regulations require that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

If you had this repair performed before you received this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall. For more information contact the Atwood Corporation at 1-800-825-4328.

We regret any inconvenience that this action may cause you. However, we are concerned about your safety. If your dealer fails or is unable to remedy this defect without charge and within a reasonable time, you may submit a written complaint to the:

Administrator
National Highway Traffic Safety Administration
1200 New Jersey Avenue SE
Washington, DC 20590

Or

Call the toll-free Vehicle Safety Hotline at 1-888-327-4236; (TTY: 1-800-424-9153); or go to
<http://www.safercar.gov>

If you have any questions, please contact the Atwood Corporation at 1-800-825-4328.

Sincerely,

Fleetwood RV, Inc.

SAFETY RECALL NOTICE

November 15, 2010

Dear Valued Customer:

This letter is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Atwood Mobile Products LLC has determined that a defect which relates to motor vehicle safety exists in certain Atwood Range Ovens manufactured on or before September 20, 2010 with model numbers beginning with RV1735, RV2135 or RA2135. Atwood Mobile Products is conducting a safety recall campaign to inspect and, where necessary, correct this issue.

What Vehicles are Being Recalled?

This recall affects certain 2011 Fleetwood recreational vehicles that were equipped with Atwood range models whose model number/name begins with RV1735, RV2135 or RA2135 and whose date code is 09/20/10 or prior.

Our records indicate that you are the owner of one of the affected vehicles as follows:

VIN:

Range Serial #: 5237001504825

What is the Problem?

Some of the subject units may contain a small fracture within the line delivering gas to the oven cavity burner. A fracture may allow gas to leak, causing an unexpected build up of gas in the vehicle. This condition can lead to a fire or explosion, and poses an asphyxiation risk.

Gas is supplied through this line only when the oven cavity is in use, and thus this condition is not present when the range oven controls are off. ***Therefore, we urge you not to use the oven function on your unit until it has been inspected or repaired.*** The range top burners may be used as normal, as long as the oven controls are off.

What Should You Do?

Obtain your range's model number, serial number and date code from the data plate which is located under the cook top as shown in the picture below. To raise the cook top, apply pressure using your thumbs to the front corners of the cook top and push backwards to release the mechanism. Raise the

cook top so that you can view the data plate. If your range model number begins with RV1735, RV2135 or RA2135 AND the date code is 09/20/10 or prior, look to see if your range has a green check mark near the data plate to indicate that your range has previously been certified as good. If you find a green check mark, enter your Manufacturer, VIN, model number, serial number and date code on the enclosed postage paid postcard and mail it back to Atwood. Alternatively, you can email the information to Atwood at range@atwoodmobile.com.

Atwood Model Number & Date Code Location

Previously Certified Units - Burner Box Green Check

If your range model numbers AND date code fall within the recall range, and there is no visible check mark on your unit, please schedule an appointment with their nearest authorized Atwood Service Center to have your range inspected and, if necessary, repaired without cost to you.

What We Will Do?

An authorized Atwood service center will inspect the suspect gas line on your range-oven unit. If the defect is present, the gas line will be replaced. This work will be performed free of charge.

If you no longer own the vehicle covered by this Safety Recall Notice, please provide the name and contact information for the new owner by contacting Atwood at range@atwoodmobile.com or by phone at (574)266-4749. This will enable us to advise the new owner of this recall.

Pursuant to Federal law, any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten (10) days.

If Atwood Mobile Products fail or are unable to provide a remedy within a reasonable time, you may wish to contact the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590, or call the toll-free Auto Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or contact NHTSA at <http://www.safercar.gov>.
