SAFETY RECALL NOTICE

ROGUE TRAILER MODEL : RS19-66-23

V.I.N.#: _____

March 4, 2011

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS RECALL

Rogue Industries has decided that a defect which relates to motor vehicle safety exists in certain models of its boat trailers that have the swing tongue option.

The pivot bolt can shear allowing the trailer tongue to swing allowing the trailer and boat to come forward and hit the towing vehicle. Should the boat/trailer hit the towing vehicle, the driver may loose control of the vehicle possibly resulting in a crash.

WHAT WE WILL DO

Rogue Industries in conjunction with the manufacture of the swing tongue device has arranged for its dealers to replace the pivot bolt and hinge pin at no cost to the customer.

WHAT YOU SHOULD DO

Please contact your closest Alumaweld dealer as soon as possible to arrange for a service date and schedule the repair. Parts have been sent out to the dealers and they have been advised of the need repair. Repairs to your boat and trailer will take approximately 10 - 15 minute, however your dealer may need additional time depending on their service department schedule.

After contacting your Alumaweld dealer or the factory, if you are still not able to have this condition remedied without charge and within a reasonable time, you may wish to write to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington DC 20590 or call the Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.
