SAFETY RECALL – NHTSA 10V-633

JANUARY 2011

Dear Monaco RV Customer,

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Monaco RV has decided that a defect which relates to motor vehicle safety exists in certain 2011 Holiday Rambler Mintaro 30', 31', and 32' travel trailers built 8/27/10 thru 11/9/10 with 15" x 6" white spoke wheels.

REASON FOR THIS RECALL

The welds that attach the rim to the wheel may fail possibly resulting in the separation of the rim from the wheel.

RISK TO MOTOR VEHICLE SAFETY

Rim separation may cause a vehicle crash possibly resulting in property damage, personal injury, or death.

DEFECT REMEDY

The remedy will involve the inspection of the vehicle's wheels and replacement if necessary. Wheels bearing the rim stamp "07 10 06Z" or "08 10 16B" will be replaced. Wheels with different stamps do not have the defect and do not require replacement. Dealers have instructions to inspect and repair your vehicle and will be able to order parts, if necessary, once an inspection is complete. The repair will be performed free of charge and may take up to 6 hours to complete.

At your option, you may inspect the wheels yourself by following the process outlined in the enclosed document, "How to Identify Recalled Wheels".
