**RE: Trans/Air Air Conditioning System Safety Standard Non-Compliance
Notification #10V-652.**

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Safety Act.

Dear Manager:

Our records indicate that you may have one or more buses built by Coach & Equipment Manufacturing Corp. equipped with an air conditioning system build by Trans/Air Manufacturing Corp. between August 2, 1999 and July 31, 2007, inclusive. Trans/Air has determined that a defect relating to motor vehicle safety exists in the evaporators installed in these vehicles.

WHAT IS BEING RECALLED:

This recall process applies to those Coach & Equipment Phoenix buses built in model years 2005 and 2006 equipped with Trans/Air air conditioning systems with TA 73 evaporators.

WHY IT IS BEING RECALLED:

The TA 73 evaporator uses a power resistor to regulate blower speed. Should a short occur in the "low" or "medium" speed circuit while the blower is in high speed, the short will cause the supply voltage to feed back through the resistor to ground, not drawing enough current to trip the fuse. If this were to happen, the resistor temperature could rise to the point where it would melt and possibly ignite the plastic blower housing to which it is mounted. This overheating could cause a fire.

WHAT YOU, THE OWNER OF THE BUS, NEED TO DO:

Contact the Trans/Air Warranty and Service Center at 1-800-424-9153 to arrange for the evaporator to be fixed at the Trans/Air service center nearest to your location. The repair will be made free of charge.

WHAT TRANS/AIR WILL DO:

Trans/Air will install a thermal shutdown device in series with the speed resistors. This service will be performed free of charge.

If, after contacting the Trans/Air Warranty and Service Center your repair is not completed in a reasonable time and without charge, you may notify:

Associate Administrator for Enforcement
National Highway Traffic Safety Administration
1200 New Jersey Avenue, SE
Washington, DC 20590
Phone (888) 327-4236

Thank you for your prompt attention to this matter. If you have any questions concerning these procedures, please contact Mike Hanna at Coach & Equipment, (315) 536-2321 x1212.

Sincerely,

Bryan D. Hickman
President
Coach & Equipment Manufacturing Corp.
