JANUARY 2011

SAFETY RECALL NOTICE

Campaign No. 10E-059

Dear Valued Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Federal-Mogul Corporation has decided that a defect which relates to motor vehicle safety exists in certain Federal-Mogul aftermarket control arm assemblies (part numbers K7425, K7427, 10945, 10946, FA4510X, FA4611X) manufactured for: Chrysler Cirrus 1995-2000; Sebring Convertible and Sedan only 1996-2006; Dodge Stratus Sedan 2001-2006; Stratus all 1995-2000; and Plymouth Breeze 1996-2000 vehicles.

Therefore, Federal-Mogul is recalling these specific control arm assemblies. The ball joint on the control arm assembly can fail causing the ball stud to wear through the control arm housing resulting in noise and/or separation of the ball stud from the housing. If there is a separation of the ball stud from the housing, a vehicle crash may occur. These products were marked under the brand names: MOOG[®], TRW^{®*}, Duralast^{®*} and NASCAR^{®*} Advantage^{™**} (the NASCAR Advantage product was sold only in Canada).

To properly determine if a recalled control arm assembly was installed, please make an appointment with our service department for a free inspection and, if required, replacement. The inspection will involve inspecting the control arm assembly ball joint cover plate to view the numerical stamp. The inspection will take approximately one-half hour. Control arm assembly replacement, if required, will take additional time. For further information, please contact our service department or call the Federal-Mogul customer hotline at 1-877-489-6659 for information within the United States. Canadian customers may call 1-800-268-7445.
