Notification to all of Ride Control direct customers took place in March 2010

5000 letters were sent to retail customers

\* 1021 units were counted in recall quantity but were held by Ride Control and not released for sale.

17495 units were returned in the 1st quarter of 2010 from Ride Control's customers prior to sale to end users. Ride Control is still in the process of sorting to determine which of these returned parts are in the recall population.

7,436 units were returned from customers' distribution facilities in the 2nd quarter. Ride Control is sorting these units to determine how many were in the recall population.

Ride Control also is in the process of getting 50 units back from customers, which have been verified as part of the recall population. The 50 units are not counted in this report.
