## RECALL 10V-312

### FOLLOW-UP NOTIFICATION

Dear Nissan Pathfinder Owner:

This second notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Nissan has decided that a defect which relates to motor vehicle safety exists in forty six 2002 Model year Nissan Pathfinder vehicles. Our records indicate that you own or lease the Nissan vehicle identified by the VIN shown below.

#### Reason for Recall

Nissan recently discovered that the passenger air bag assembly in your vehicle may have been manufactured out of specification. During the air bag inflator assembly process, certain air bag inflators may be missing a component that is required to properly deploy the front passenger air bag. If an affected vehicle is involved in a crash where the front passenger air bag is designed to deploy, there is a possibility that the passenger air bag inflator housing could rupture during air bag deployment and pieces of the inflator could strike and possibly injure vehicles occupants.

#### What Nissan Will Do

Your Nissan dealer will replace the front passenger air bag module assembly with a new, correct assembly. This free service should take 2 hours to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

#### What You Should Do

If you have not done so already, we urge you to please contact your Nissan dealer at your earliest convenience in order to arrange an appointment to have your vehicle repaired. Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer.

If you have additional questions you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-NISSAN1 (1-800-647-7261).
