Re: DEFECT INFORMATION REPORT

Dear Ms. Lewis,

Pursuant to Part 573 of Title 49 of the Code of Federal Regulations, Volvo Cars of North America, LLC (Volvo) submits the attached supplemental information to our May 26, 2011 defect information report for recall 11V-303.

While reviewing internal documentation and compiling the data for required quarterly reports, Volvo noticed a typographical error in the number of eligible vehicles originally reported to the agency for the subject recall. Volvo found that the number of "completed vehicles" exceeded the number of "eligible vehicles". After investigating the error, Volvo confirmed that this was in fact a true typographical error and all of the eligible vehicle owners were in fact included on the original owner notifications. The original total has been increased by 621 vehicles from 7,558 to 8,179. To-date, Volvo has achieved a 94% completion rate for this recall.

If you have any questions related to this matter, please feel free to contact me at my above mentioned phone number, or Larry Mihok of my staff at 201-768-7300, extension 7336.

Sincerely yours,

A handwritten signature in black ink, appearing to read "A. Kopstein".

Adam Kopstein  
Manager, Product Safety & Compliance Office  
VOLVO CARS OF NORTH AMERICA, LLC.

Attachment

573.6 (c) 3: Total number of Vehicles Potentially Containing the Defect

A total of approximately 8,179 vehicles in the U.S. and its Territories are potentially affected.
