Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Jayco, Inc. (“Jayco” or the “Company”) is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.6(c)(2)

Affected vehicles are 2012 Jayco Seneca Class C Motorhomes, series 36FK and 37FS.

The affected vehicles were manufactured between May 18, 2011 and July 13, 2011.

The recall population was determined from the manufacturing records for the Company’s manufacturing plant in Middlebury, Indiana, which produced the affected recreational vehicles.

573.6(c)(3)

A total of 28 vehicles are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

Model year 2011 vehicles with a starting VIN of 1FVACWDU0BDBB4042 and ending with 1FVACWDUXBDBB4050.

573.6(c)(4)

Jayco is recalling 100 percent of the affected vehicles identified in the scope.

573.6(c)(5)

Jayco has decided that certain 2011 Jayco Seneca Class C Motorhomes, series 36FK and 37FS, may have insufficiently torqued bolts attaching the rear hitch to the frame. If all of the bolts were to come loose, it could result in the hitch coming loose from the frame and if this occurred while the vehicle was in motion on the road, a collision, injury, or death may result.

573.6(c)(6)

During the course of routine inspection, it was discovered that the hitch bolts were not sufficiently torqued.

573.6(c)(8)

The remedy for the affected recreation vehicles will involve inspection and tightening of the hitch bolts.

Copies of the repair instructions, dealer notification letters, and owner letters will be provided to the agency within 10 business days. Jayco is contacting all dealers and retail owners of the affected vehicles. Upon notification Jayco is prepared to begin dealer notification within 5 business days after approval, and to owner's ten business days subsequent to dealer notification.

Thank you for your assistance,
