Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Jayco, Inc. ("Jayco" or the "Company") is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.6(c)(2)

Affected vehicles are 2010 & 2011 Jayco Greyhawk Class C Motorhomes.

The affected vehicles were manufactured between May 28, 2009 and September 22, 2010.

The recall population was determined from the manufacturing records for the Company's manufacturing plant in Middlebury, Indiana, which produced the affected recreational vehicles.

573.6(c)(3)

A total of 502 vehicles are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

Model year 2010 & 2011 vehicles with a starting VIN of 1FDXE45S09DA61786 and ending with 1FDXE4FSXADA89811.

573.6(c)(4)

Jayco is recalling 100 percent of the affected vehicles identified in the scope.

573.6(c)(5)

Jayco has decided that certain 2010 & 2011 Jayco Greyhawk Motorhomes may have an improper electrical connection at the buss bar on the affected transfer switches. This improper connection may lead to overheating and melting of the transfer switch. If this condition is not addressed, it may result in a fire, injury or death.

573.6(c)(6)

Jayco decided to conduct this recall following an internal investigation subsequent to receiving VOQ 10425398. Jayco is not aware of any injuries or accidents related to this issue.

573.6(c)(8)

The remedy for the affected recreational vehicles is to replace the transfer switch.

Copies of the repair instructions, dealer notification letters, and owner letters will be provided to the agency within 10 business days. Jayco is contacting all dealers and retail owners of the affected vehicles. Upon notification Jayco is prepared to begin dealer notification within 5 business days after approval, and to owner's ten business days subsequent to dealer notification.

Thank you for your assistance,
