**IMPORTANT SAFETY RECALL REMINDER**

Ford Motor Company would like to remind you that your 2001 Windstar needs to have the following no charge recall(s) completed.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

**Recall Number 11S16 - Subframe Inspection/Repair and Description:**

**What is the Issue:** On your vehicle, the front subframe lower control arm rear attaching flanges or both rear body mounts could separate from the vehicle subframe after operating in high corrosion areas (where salt is used on the roadways during winter months) for an extended period of time. This may result in a loss of vehicle directional control, increasing the risk of a crash.
