IMPORTANT SAFETY RECALL REMINDER

Ford Motor Company would like to remind you that your 2010 Ranger needs to have the following no charge recall(s) completed.

You received this notice because our records, which are based primarily on state registration and title data, indicate that you are the current owner.

**Recall Number 11S17 - Fuel Line Inspection
 and Description:**

What is the Issue: On your vehicle, the engine fuel line in the area of the throttle body shield may not have a protective convolute (cover) properly installed. If the protective convolute on the fuel line is not assembled in the proper position, the edge of the shield may contact the fuel line. Over time this contact may chafe the fuel line, resulting in a fuel odor and a potential fuel leak. A sufficient fuel leak in the presence of an ignition source may result in a fire.

What Are We Asking You To Do? Please contact your dealer to schedule an appointment to have this important service procedure completed. If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps and driving instructions.
