

Mack Trucks, Inc.

Safety Recall ALERT

Date: April 6, 2011 **Number:** SRA-M11-02
To: All U.S. & Canadian Distributors
Attention: Service Manager, Warranty Manager, Parts Manager, Dealer Principal
From: Regulatory Affairs Department
Subject: Safety Recall, SC0351, Fifth Wheel Mounting Bolts

Safety Recall Summary:

On certain CHU and CXU model vehicles manufactured from January 2008 to July 2010, there may be an interference with the bolts used to secure the fifth wheel to the frame, which can prevent the bolts from being torqued to specification. If this occurs, the bolt(s) may fail, and in extreme cases may result in the fifth wheel coming loose causing the trailer to separate from the tractor.

There are approximately 1,869 vehicles that may contain the defect.

Dealer's Responsibility:

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Release Schedule:

- Repair Instructions are tentatively scheduled for release no later than May 23, 2011.
- Vehicle list is tentatively scheduled to be posted on the Trucks Dealer Portal April 8, 2011.
- Owner Notices are scheduled to be mailed on or before May 30, 2011.

Questions:

Contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com if you have questions.
