Regarding: **SAFETY RECALL – ELGIN MEGAWIND MX TIER III RADIATOR FAN REPLACEMENT**
Megawind MX street sweepers manufactured by Elgin between February 2010 and April 2011
Elgin Sweeper serial numbers: MX3002D, MX3006 through MX3021, MX3025, and MX3026

Dear Elgin Dealer:

Service Bulletin SB-0086 Megawind MX Sweeper Radiator Fan Recall has been issued for Megawind street sweepers with Tier III John Deere Auxiliary engines. These Megawind sweepers have a plastic radiator fan for the auxiliary engine. Under heavy operating conditions and high engine RPM, torsional vibration can cause the radiator fan to fatigue and crack. There is a possibility that the fan can shatter. If this condition occurs, persons performing a repair or persons near the sweeper could be injured. Elgin Megawind MX street sweepers with the serial numbers MX3002D, MX3006 through MX3021, MX3025, and MX3026 must be repaired per the repair instructions in Service Bulletin SB-0086. Your customers will be informed of this recall by certified mail by May 26, 2011.

Elgin Sweeper has developed a solution for this for this problem with Field Repair Kit #1104590. These parts will be available to order when the customer receives the notification. Please only order enough Field Repair Kits for the customers and units you are responsible for in the attached list, Appendix A, Customer List and Recalled Units. Any units that may be affected will be repaired at no charge to the customer. Customers will be asked to contact you to schedule the repair. We anticipate this repair to take approximately 24 hours. Please use the attached Recall Service Bulletin that will provide instructions for making the necessary repairs to move radiator fan from the engine crankshaft to a belt-driven pulley. Field Repair Kit #1104590 contains all the cooling system components and hardware necessary.

Please contact the Elgin Service Department at 1-877-DIAL-ESG (1-877-342-5374), if you have any questions regarding this notice.

Thank you for your support on this upcoming Megawind MX sweeper recall.

Sincerely,

Mario Martinez
Service Manager, Elgin Sweeper
