NHTSA Recall No. 11V-
Transport Canada Recall No. 2011-

Safety Recall Notice ***Voltage®***

Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and The Canadian Motor Vehicle Safety Act and is important for your safety.

Dutchmen Manufacturing, Inc. (Dutchmen) has decided that a defect which relates to motor vehicle safety exists in certain *Voltage* brand travel trailers manufactured between January 3, 2011 and July 8, 2011. Other trailer models manufactured by Dutchmen Manufacturing, Inc. during this time period are not included in this recall.

It has been decided The vehicles subject to this recall campaign were manufactured with fuel supply and fuel return hoses that may contain a splice in the fuel line. These lines should be continuous run through a PVC pipe that runs from the fuel tank to the generator. This condition was discovered after a supplier change. Bulk spools of fuel line have been found to contain a random splice that is evident by yellow tape joining two ends. A limited number of *Voltage* units may contain lines that have a splice. Lines that contain a splice may eventually leak fuel, which could result in a potential fire.

The required action is to inspect the fuel lines between the fuel tank and the generator. If found to have a splice, the lines need to be replaced. The replacement parts required for this corrective action are readily available through Dutchmen Service Parts.

Dealers that have stock units impacted by this recall will have a list of affected units attached to this recall bulletin. If any unit on this list has been retail sold you are asked to notify the retail owner as soon as possible of this recall because their vehicle was not registered at the time the retail notice was mailed. Please immediately register any retail sold units on this list in Dutchport. **As a reminder, you are required by law to complete this recall on any stock units in inventory prior to retail sale. Any vehicle lessor receiving this notice must forward a copy to the lessee within 10 days.**

Please find attached a copy of the retail notification letter as well as the required repair procedure for this recall. In addition, instructions for claim filing have also been included.

If you have questions concerning this recall or if you need any assistance, please contact the **Dutchmen Warranty/Service Department** at 574-537-0700.

We apologize for this inconvenience; however, we have taken this action in the interest of customer safety and continued satisfaction with our products.

Sincerely,

Jerry McCarthy
Director of Service Operations
