

Safety Recall Notice

Dear Dealer:

This **Safety Recall Notice** is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act and The Canadian Motor Vehicle Safety Act and is important for your safety.

Thor Motor Coach (TMC) decided that a defect which relates to motor vehicle safety exists in the Damon and Thor Motor Coach Tuscany, Damon and Thor Motor Coach Astoria, and Damon Essence models of motor homes manufactured between May 7, 2009 and August 12, 2011.

All of the motorhomes subject to this recall campaign have an underrated thermal circuit breaker installed into the wiper motor circuit. The breaker that was installed by TMC is 10 amps and should be 15 amps. The windshield wipers can completely stop operating if this breaker trips due to an overload. If this occurs the drivers clear field of vision may be reduced, which could result in a vehicle crash.

The required action is to install a new 15 amp circuit breaker in the wiper motor circuit.

Dealers that have stock units impacted by this recall will have a list of affected units attached to this recall bulletin. If any unit on this list has been retail sold you are asked to notify the retail owner as soon as possible of this recall because their vehicle was not registered at the time the retail notice was mailed. Please immediately register any retail sold units on this list. **As a reminder, you are required by law to complete this recall on any stock units in inventory prior to retail sale. Any vehicle lessor receiving this notice must forward a copy to the lessee within 10 days.**
