**NOTICE OF RECALL #11V-512**  
**Anti-lock braking system utilizing MSQR-5000**

**SAFETY RECALL NOTICE**

January \_\_\_\_, 2012

NHTSA Recall Management Division (NVS-215), NHTSA  
1200 New Jersey Avenue SE  
Washington, DC 20590  
Dear Great Lakes Trailer Dealer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Great Lakes Manufacturing, Inc. (Great Lakes), the manufacturer of Great Lakes Trailers, has decided that certain model year 2002 through 2007 tractor trailer models, particularly Crib Drop, manufactured in years 2002-2003; Crib Drop, manufactured in years 2005-2007; Dump, manufactured in year 2002; Pup manufactured in years 2002-2007; Rail Chassis, manufactured in years 2003-2007; Single Drop, manufactured in years 2002-2006; Tag Along, manufactured in year 2003; Wallboard, manufactured in years 2002-2006; and Economy, manufactured in years 2005-2006, fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 121, "Air Brake Systems" (FMVSS 121). Our records indicate that you may have sold or distributed one or more of the foregoing trailers.

The affected vehicles are equipped with the MSQR-5000 differential pressure regulator/quick release valve device manufactured by Air Brake Systems. FMVSS 121 specifies certain requirements, including that the Air Brake System provide a warning light to notify the operator when the rotation of the tires during braking are not within predetermined parameters. The Air Brake Systems installed in the foregoing vehicles do not provide the required warning light, thereby increasing the risk of a crash.

Great Lakes is conducting a recall campaign for the subject vehicles described above. Letters have been sent to known purchasers of the affected trailers. The recall will be conducted to remove the MSQR-5000 system and replace it with a compliant system. The repair will be performed, at no cost, either at a designated dealer service center or the Great Lakes plant in Suring, Wisconsin. Purchasers of the subject trailers have been advised to contact our Warranty Department at (877) 248-5677 to schedule the appropriate repair. Great Lakes has also offered to provide the necessary parts and complete installation instructions to repair the noncompliance to those customers who should have the qualified personnel, and wish to perform the repair themselves.

If you still have any of the foregoing trailers in your supply of vehicles, please contact our Warranty Department to discuss and/or schedule the appropriate repair. Please mention Recall Campaign #11V-512.

**Please be advised that it is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment covered by this notification under a sale or lease until the noncompliance is remedied.**

We apologize for any inconvenience this may cause. Should you have any additional questions concerning this recall, please contact our Warranty Department at (877) 248-5677.

Best Regards,

Great Lakes Manufacturing, Inc.
