**WARRANTY  
Bulletin**

Subject: <b>Recall</b>		<b>Rear Brake Recall Kit</b>	
Effective date :	<b>4/1/2012</b>	Document number :	<b>CF2011-001W</b>
Vehicle(s) involved :		<b>2005 – 2009 CF250T V3 /V5, VIN chart information available online</b>	
Person(s) concerned by this information :		<b>After-sales manager, warranty manager, technicians</b>	

To: All CFMOTO Dealers:

The National Traffic and Motor Vehicle Safety Act, as amended, provides that each vehicle which is subject to a recall campaign must be adequately repaired within a reasonable time after the owner has tendered it for repair. Failure to repair within sixty (60) days after tender of a vehicle is prima facie evidence of failure to repair within a reasonable time. If the condition is not adequately repaired within a reasonable time, the owner may be entitled to an identical or reasonable equivalent vehicle at no charge or to a refund of the purchase price less a reasonable allowance for depreciation. To avoid having to provide these burdensome solutions, every effort must be made to promptly schedule an appointment with each owner and to repair their vehicle as soon as possible. As you will see in reading the attached copy of the letter that is being sent to owners, if the condition is not remedied within a reasonable time, they are instructed on how to contact the National Highway Traffic Safety Administration.

**DEFECT AND VEHICLES INVOLVED**

CFMOTO has determined that a noncompliance with NHTSA Regulations relates to 2005 – 2009 CFMOTO CF250T V3/V5 model vehicles. NHTSA has designated the CFMOTO CF250T V3/V5 model vehicles as Motorcycles. As a result, under NHTSA Regulation FMVSS No. 123, all CFMOTO CF250T V3/V5 model vehicles are now required to have a right foot control rear brake actuator as an alternative to the left handlebar rear wheel brake actuator currently installed on the vehicles. Vehicle VIN listing can be found on the CFMOTO-us.com web site under “download”. To correct this condition, CFMOTO will imitate a recall beginning April 1, 2012, pursuant to which the dealer will install a right foot control rear wheel brake kit on all CF250T V3/V5 models brought in for service under this recall program. The work will take about (1.0) hours to complete. However, additional time may be required depending on how dealer appointments are scheduled and processed. Please advise the owner that the service will be done without charge. A Warranty bulletin with instructions for the kit installation will be issued by CFMOTO in conjunction with the delivery of the right foot control rear brake actuator kit. Brake kits are expected in stock the first week of March, 2012. Please order these update kits as needed to fit your customer needs.
