

CFMOTO CF250T V3/V5 SERVICE BULLETIN

TO: All CFMOTO Dealers

The National Traffic and Motor Vehicle Safety Act, as amended, provides that each vehicle which is subject to a recall campaign must be adequately repaired within a reasonable time after the owner has tendered it for repair. Failure to repair within sixty (60) days after tender of a vehicle is prima facie evidence of failure to repair within a reasonable time.

If the condition is not adequately repaired within a reasonable time, the owner may be entitled to an identical or reasonable equivalent vehicle at no charge or to a refund of the purchase price less a reasonable allowance for depreciation. To avoid having to provide these burdensome solutions, every effort must be made to promptly schedule an appointment with each owner and to repair their vehicle as soon as possible. As you will see in reading the attached copy of the letter that is being sent to owners, the owners are being instructed to contact the [MFR] customer service if their dealer does not remedy the condition within three (3) days of the mutually agreed upon service date. If the condition is not remedied within a reasonable time, they are instructed on how to contact the National Highway Traffic Safety Administration.

DEFECT AND VEHICLES INVOLVED

CFMOTO has determined that a noncompliance with NHTSA Regulations relates to 2005 – 2009 CFMOTO CF250T V3/V5 model vehicles. NHTSA has designated the vehicles as a Motorcycle. As a result, under NHTSA Regulation FMVSS No. 123, all CFMOTO CF250T V3/V5 model vehicles are now required to have a right foot control rear wheel brake actuator, in addition to or as an alternative to the left handlebar rear wheel brake actuator currently installed on the vehicles.

To correct this condition, the dealer will install a right foot control rear wheel brake kit on all CFMOTO CF250T V3/V5 models brought in for service under a recall program. The work will take about [xx] hours to complete. However, additional time may be required depending on how dealer appointments are scheduled and processed. Please advise the owner that the service will be done without charge. A technical Service Bulletin and Installation Instructions will be issued by CFMOTO in conjunction with the delivery of the right foot control rear wheel brake actuator kit.

Please contact the undersigned with any questions.

Sincerely,

Adam Tao
General Manager
