 Safety Recall Notice 11S22

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Ford Motor Company has decided that a defect which relates to motor vehicle safety exists in a Ford service replacement fuel tank that we believe was installed in your vehicle with the Vehicle Identification Number shown above.

We apologize for this situation and want to assure you that, with your assistance, we will correct this condition. Our commitment, together with your dealer, is to provide you with the highest level of service and support.

What is the issue?

Some service replacement fuel tanks sold through Ford Dealers for E-Series Van and Wagon models were misbuilt. These fuel tanks have a sensor mounting hole that is not used on your vehicle. A misbuilt service replacement fuel tank that has a sensor hole that is not properly sealed may leak fuel. Fuel in the presence of an ignition source may result in a fire.

What will Ford and your dealer do?

Ford Motor Company has authorized your dealer to replace your fuel tank free of charge (parts and labor).

How long will it take?

The time needed for this repair is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What should you do?

Please call your dealer without delay and request a service date for Recall 11S22. Provide the dealer with the Vehicle Identification Number (VIN) of your vehicle. The VIN is printed near your name at the beginning of this letter.

If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps, and driving instructions.
