

Recall 11-042-8WU
4-way signal lamps (8 red lamps)

June 2011

This notice is sent to you in accordance with the requirements of the National Traffic and *Motor Vehicle Safety Act*.

Micro Bird has decided that certain 2006 through 2010 Girardin G5 and MBII and 2010-2011 Micro Bird G5 and MBII built with a 4 way school bus signal lamps using 8 red lamps fail to comply with Federal Motor Vehicle Safety Standard No. 131, "School bus pedestrian safety devices." Our records show that you own the vehicle(s) with the vehicle identification number shown above (or on the reply sheet).

What is the safety issue?

There is no alarm to alert the driver that the stop arm is not deployed when the first set of 4 red lamps (acting as 4 yellow lamps) is activated.

The driver could erroneously think that the school bus stop arm is deployed while the first set of 4 red lamps are activated. This condition increases risk of injury to pedestrians.

What should you do?
