611-A

SUBJECT: SAFETY RECALL # 611-A
Meritor RPL25 Driveline
EXPIRATION DATE: NONE

Dear Peterbilt Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Peterbilt Motors received notification from Meritor Inc. that a defect which relates to motor vehicle safety exists in certain vehicles built between January 17, 2011 and February 10, 2011 with RPL25 series main drivelines. Our records indicate that your vehicles, identified by the VINs on the attached list, were manufactured within this time period and may contain a defect.

The tube of the main driveline may have a nonconforming weld seam along the tube of the driveshaft. The nonconformance can result in a seam weld fracture when torque is applied. Once the tube seam is fractured, the driveline may become inoperable, which may result in a risk to motor vehicle safety.

The problem is...	Possible main driveline weld seam defect
