IMPORTANT SAFETY RECALL NOTICE

July 22, 2011

Dear Yamaha Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Yamaha Motor Corporation, U.S.A., has decided that a defect which relates to motor vehicle safety exists in certain 2011 FJR13AAS and AASC motorcycles. Our records show that you own the affected motorcycle shown above.

The reason for this recall:

On affected motorcycles, the brake light may not illuminate when the front brake lever is applied because the activating mechanism in the front brake switch can bind. If the brake light does not come on to alert other drivers when the motorcycle operator applies only the front brake, there could be a crash resulting in injury or death.

What Yamaha and your dealer will do:

To correct this defect, your authorized Yamaha dealer will install a new front brake switch. **There will be no charge to you for this procedure.** Installing the new front brake switch takes 15 minutes, although your dealer may need to keep your motorcycle longer depending upon their schedule.

What you should do now:

Please call your Yamaha dealer to make a service appointment to have this procedure performed. At that same time, you can find out how long they expect to keep your motorcycle for this service. Remember to take this letter with you when you take in your motorcycle. **You should not ride your motorcycle until this modification is performed.** If you are unable to return to the Yamaha dealer who sold you the motorcycle, this service will be performed by any authorized Yamaha Motorcycle dealer. For the name of a dealer near you, call 1-800-88-YAMAHA or visit the Yamaha web site at: www.yamahamotor.com.

Federal regulations require that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within 10 days.
