**RE: SAFETY RECALL NOTICE – NHTSA 11V-462
VEHICLE ID NUMBER ENDING IN: BB085234**

Dear VMI Conversion Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Vantage Mobility International (VMI) has decided that a defect which relates to motor vehicle safety exists in certain 2011 VMI Honda Odyssey conversion vehicles produced between June 27, 2011 and August 24, 2011.

! I M P O R T A N T !

- Your 2011 VMI Honda Odyssey conversion is being recalled
- You should contact your VMI dealer as soon as possible to have the faulty item replaced

Why is a recall being conducted?

VMI was informed by a supplier that the connectors on certain fuel line assemblies supplied to VMI were made with a “non-conductive” resin. The supplier informed VMI that it is important that the connector material be “conductive” so it can dissipate potential static electricity build up. A spark, in the presence of a fuel leak, could cause a vehicle fire. VMI has determined that the fuel lines on your vehicle should be replaced as soon as possible.

What are we doing about the problem?

VMI has already sent your VMI dealer a replacement set of fuel lines. These lines are to be installed in your vehicle as soon as possible. The work will take approximately one (1) hour and you will not be charged for the work.

What should you do?

Contact your VMI dealer as soon as possible to schedule an appointment to have your non-conforming fuel lines replaced. If you do not know your VMI dealer you may contact VMI at (800) 348-8267. A representative will direct you to your dealer.

What if you no longer own this vehicle?

If you no longer own this vehicle, please contact VMI at (800) 348-8267 and let us know how to contact the new owner of the vehicle.

Who should you contact if you have further questions or concerns?

If you have any additional questions you may contact your VMI dealer or VMI at any time.

If after attempting to have your vehicle repaired you believe you have not been able to have your vehicle remedied without charge and within a reasonable amount of time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington, D.C., 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience this safety recall may cause, but your safety is our first concern.

Sincerely,

Vantage Mobility International
