

October 2011

Dear Chevrolet Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that certain 2011-2012 model year Chevrolet Corvette Coupe vehicles fail to conform to Federal/Canada Motor Vehicle Safety Standard 206, Door Locks and Door Retention Components. As a result, GM is conducting a recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

**I M P O R T A N T**

- Your vehicle is involved in recall 11258.
- Schedule an appointment with your Chevrolet dealer.
- This service will be performed for you at **no charge**.

**Why is your vehicle being recalled?**

The rear hatch hinges on your vehicle may not meet the load requirements specified in the Safety Standard, which may allow the rear hatch to separate from the vehicle in a crash and increase the potential for injury.

**What will we do?**

Your Chevrolet dealer will replace both rear hatch hinges. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 1 hour.

If your vehicle is within the New Vehicle Limited Warranty, your dealer may provide you with shuttle service or some other form of courtesy transportation while your vehicle is at the dealership for this repair. Please refer to your Owner Manual and your dealer for details on courtesy transportation.

**What should you do?**

You should contact your GM dealer to arrange a service appointment as soon as possible.

**Do you have questions?**

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
