Re: Vehicle Identification Number

Dear Corolla / Sienna Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Southeast Toyota Distributors, LLC ("SET") has determined that a defect which relates to motor vehicle safety exists in certain 2010-2011 model year Corolla vehicles equipped with a non-Toyota Bluetooth hands free device or navigation unit and 2011 model year Sienna vehicles with a non-Toyota, overhead entertainment system and/or Bluetooth hands free device.

What is the condition?

On certain 2010-2011 model year Toyota Corolla and 2011 model year Toyota Sienna vehicles, there is a possibility that the front A-pillar garnish clip may have been damaged during the installation of an overhead entertainment, navigation, and/or Bluetooth hands free device. A clipped front A-pillar garnish clip may allow the A-pillar garnish to become loose and injure an occupant in the event of a crash.

What is Southeast Toyota Distributors, LLC going to do?

SET will inspect the A-pillar garnish clip and replace it if necessary. The inspection and repair will be conducted at no charge to you.

What should you do?
