Disposal of the Vehicle

- The vehicle has not been, and will not be, sold, leased, exchanged or otherwise disposed of for use as an automobile in the United States or in any other country
- The vehicle will be removed from service and scrapped at a vehicle disposal facility (not salvaged)
- The disposal facility will destroy the rear axle beam and front subframe
- The disposal facility is responsible for the removal and appropriate disposition of refrigerants, antifreeze, lead products, mercury switches, and such other toxic or hazardous vehicle components prior to the crushing or shredding of an eligible vehicle, in accordance with all applicable Federal and State requirements.
