Subject: DBNA 2012 Q2 completion report

Good morning Kelly,

Please find attached, the 2012 Q2 recall completion reports on behalf of Daimler Buses North America (DBNA).

Please note that effective July 1st, 2012, MCI Corp has taken over the sales, distribution, marketing and service of the Setra luxury motorcoaches manufactured by EvoBus GmbH in Germany.

Any future Setra related recalls will be handled by MCI as will the quarterly recall completion reports – as of 2012 Q3 this is anticipated to be only 11V-220, the second of the two non-compliance drivers partition glass recalls.

DBNA will continue to submit the Orion transit bus and Sprinter mini-bus related recall completion reports.

If you have any questions or concerns, please contact me.

Regards,

Bill.

Product Safety and Compliance Officer.
