Subject: Electric Auxiliary Coolant Pump Recall 11V-521, 2008-2012 5 Series, 5 Series Gran Turismo, 7 Series, X5 SAV, X6 SAV models with 8 and 12-cylinder engines.

BMW of North America, LLC has determined that additional vehicle production was affected by auxiliary coolant pumps that were not manufactured correctly. Key Reader or DCS inquiry identification of these vehicles is expected by April 13.

Parts should only be ordered in small quantities as needed; large orders will be cancelled to avoid overstocking of the Recall part numbers. Less than 3,000 vehicles are being added to the Recall nationwide.

A list of Questions and Answers has been prepared that should address most inquiries our customers may have. Please provide and discuss this information with your staff.

Thank you for your cooperation,

BMW of North America, LLC
