******* IMPORTANT VEHICLE RECALL NOTICE *******
RECALL INSPECTION REPAIR REQUIRED PRIOR TO CUSTOMER DELIVERY

DATE: June 03, 2011

TO: All U.S. and Canadian Volvo Retailers
Volvo Recall 245

RE: Fuel Line Inspection/Replacement

MODEL	MODEL YEAR	CHASSIS RANGE
S60T5	2012	30902 - 32474

Please refer to the eligible vehicle list at the end of this bulletin.

The sale or lease of defective or non-compliant motor vehicles or equipment is prohibited. Vehicles in retailer inventory must be inspected prior to sale. Repair information is attached to this communication.

Volvo Cars of North America, LLC (Volvo) has decided to conduct a voluntary safety recall on certain model year 2012 S60T5 vehicles.

Volvo has identified that the male part of the fuel line quick connector end shape was produced with dimensions out of specification, leading to excessive assembly force on the female connector assembly and the possibility that the locking function may not be engaged.

If a vehicle exhibits this condition, the fuel line quick connector may detach and the engine may stall. The customer may also notice a fuel smell and leakage. A fuel leak in the presence of an ignition source could result in a fire.

Volvo retailers will need to inspect and perform the interim remedy to the fuel line connectors per the attached instruction prior to delivering an eligible new or serviced vehicle to a customer. Please refer to the attached eligible vehicle list.

Customer vehicles that exhibit the symptoms described above are determined to have a defect as per the attached inspection instructions will need to be taken out of service and a loaner or rental

vehicle is to be provided until the subject vehicle's fuel lines can be replaced.

The attached fuel line inspection/replacement method is an interim action until the complete Recall 245 retailer package is released. Recall 245 will involve replacement of the fuel lines when the repair method and parts are available.

Vehicles that are inspected per the attached instructions will need to return for the replacement of the fuel lines when the complete Recall 245 retailer package is released.

OWNER NOTIFICATION

Owner notification is scheduled to begin in June after the complete retailer package is released.

PARTS INFORMATION

No parts are to be replaced at this time.

Please refer to the attached inspection procedure.

CAMPAIGN REIMBURSEMENT PROCEDURES

Vehicles in retailer inventory must be inspected prior to sale.

Text

CSC = Customer Symptom Code**DTC = Diagnostic Trouble Code****Note! If using a printed copy of this Technical Journal, first check for the latest online version.****DESCRIPTION:**

Volvo has identified that the male fuel line quick connector end was produced with dimensions out of specification, leading to excessive assembly force on the female connector assembly and the possibility that the locking function may not be engaged.

If a vehicle exhibits this condition, the fuel line quick connector may detach and the engine may stall. The customer may also notice a fuel smell and leakage. A fuel leak in the presence of an ignition source could result in a fire.

Volvo retailers will need to inspect the fuel line connectors per the attached instruction prior to delivering an eligible new or serviced vehicle to a customer.

Customer vehicles that are determined to have a defect per the attached inspection instructions will need to be taken out of service. The vehicle must remain parked at the retailer until Recall 245 is released.

SERVICE:

Check the fuel line according to the attached instructions.

VOLVO STANDARD TIMES GUIDE (VSTG) INFO:

Operation number 08274- Inspect fuel lines - 0.1 hrs

- Claims may be submitted under the new car warranty when there is a documented customer complaint using claim type: 01
- Labor times are valid at the time of release and are subject to change.

Volvo Car Customer Service			
		TJ Instruction	
		TJ No 24868	
			Date June-11 Issue 01
Title	Fuel pipe end connector, inspection		

1. Make sure the engine is cold. Put a rag around the pipe to catch any escaping fluids.

2. Grab the fuel line on each side of the connector and check the connector as follows:

Push then pull on the fuel line connector. Movement in the connector of about 1 mm (about 0.04") is OK. Release the car.

If there is no movement, the vehicle must remain parked at the retailer until Recall 245 is released. Vehicles that are determined to have a defect per the inspection instructions will need to be taken out of service.

SEE ATTACHED ELIGIBLE U.S. and CANADIAN VEHICLE LIST.

This vehicle list is only valid until the complete Recall 245 retailer package is released.
