NHTSA Recall # 11E-040

Recall Notification for CURT MFG., LLC Wire Harness Converter Module (T-Connector) Part No. 55538

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

CURT Mfg. LLC has decided that a defect which relates to motor vehicle safety exists in the aftermarket Tow Package Wire Harness (T-Connector) Product, CURT Mfg. Part No. 55538, sold for use on the 2007– 2011 Hyundai Santa Fe vehicles.

What is the issue?

The product connects to a 30 amp circuit provided by the vehicle manufacturer for trailer light power. If not properly located, circuit contamination can cause the CURT converter module to fail under a high current short / overload condition before the vehicle's 30 amp fuse opens. When the module fails, it can overheat, possibly resulting in a fire.

If you are a vehicle owner, continue reading. If you are a CURT Mfg. dealer/distributor see the boxed section at the end of this letter.

VEHICLE OWNERS:

What will CURT Mfg. do to correct this issue?

CURT Mfg. will replace the affected wiring harness with a different model. The total time needed for the removal of the 55538 and installation of 56152 is 1 hour. All work will be done at no charge.

Consumers should immediately contact your dealers to schedule the replacement service. To locate a dealer, if you no longer own this vehicle or if you have additional questions, contact CURT Mfg. Technical Service at 1-800-798-0813.

If your dealer fails or is unable to remedy this defect without charge and within a reasonable time, you may submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590, or call 1-888-327-4236. (TTY: 1-800-424-9153) or go to <http://www.safercar.gov>.

Your safety is important to CURT. We regret any inconvenience this action may cause you.

Sincerely,

CURT Manufacturing, LLC
