REMINDER NOTICE

Subject: AirLiner Mono Leaf Suspension Springs

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC, on behalf of its Freightliner Trucks Division, has decided that a defect which relates to motor vehicle safety exists on specific Freightliner Argosy, Cascadia, and Columbia vehicles manufactured January 4, 2010, through November 30, 2010, with AirLiner Mono Leaf Suspension Springs.

Certain vehicles may have been built with rear suspension springs that may fracture through the center bolt hole after assembly. Less than optimal springs and installation procedures for the axle clamp group at the Cleveland manufacturing plant may result in hydrogen induced or assisted cracking. If undetected, over time the rear end of the spring may separate from the vehicle, resulting in a hazardous road debris situation, increasing the risk of a crash.

The rear suspension springs will be inspected and any damaged springs will be replaced.

This is a follow up to a previous communication. Our records indicate that your vehicle has not yet had this Recall performed. Please make arrangement to have this repair done as soon as possible. If it has been completed, please disregard this letter.

Please contact an authorized Daimler Trucks North America dealer to arrange to have the recall performed and to ensure that parts are available at the dealership. To locate an authorized dealer, search online at www.Daimler-TrucksNorthAmerica.com. The Recall will take approximately one to four hours, depending on the work needed, and will be performed at no charge to you.

If you do not own the vehicle that corresponds to the identification number(s) which appears on the Recall Notification, please return the notification to the Warranty Campaigns Department with any information you can furnish that will assist us in locating the present owner. If you have leased this vehicle, Federal law requires that you forward this notice to the lessee within 10 days. If you are a subsequent stage manufacturer, Federal law requires that you forward this notice to your distributors and retail outlets within five working days.

If you have questions about this Recall, please contact the Warranty Campaigns Department at (800) 547-0712, 7:00 a.m. to 4:00 p.m. Pacific Time Monday through Friday, e-mail address DTNA.Warranty.Campaigns@Daimler.com, or the Customer Assistance Center at (800) FTL-HELP after normal business hours. If you are not able to have the defect remedied without charge and within a reasonable time, you may wish to submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the Vehicle Safety Hotline at (888) 327-4236 (TTY: 800-424-9153); or to <http://www.safercar.gov>.

We regret any inconvenience this action may cause but feel certain you understand our interest in motor vehicle safety.
