REMINDER NOTICE

Subject: FCCC Bus Chassis Grid Heater Relay Wiring

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Daimler Trucks North America LLC, on behalf of its wholly owned subsidiary, Freightliner Custom Chassis Corporation, has decided that a defect which relates to motor vehicle safety exists on specific Thomas Built Buses Saf-T-Liner C2 school buses built on Freightliner Custom Chassis B2 chassis and Freightliner Custom Chassis S2 shuttle bus chassis manufactured November 15, 2010, through September 29, 2011, with a certain grid heater mounting bracket.

The grid heater relay ground wire may contact the relay power terminal and rub or chafe, resulting in a possible short circuit. An electric fault or short circuit could cause a vehicle fire.
