RE: Auxiliary Pump Recall – UPDATE

NEW - Please read the below message in its entirety – you do not need to send an email to order p/n 7 629 916.

The parts associated with the recall announced in SIB B11 08 11, are in stock at the RDCs with limited quantities.

Unfortunately we have to institute an email ordering process for five of the six part numbers involved, this is to ensure adequate supply to those dealers who have actual affected vehicles for the recall. The ordering instructions and part numbers are below.

All requests will require Dealer code, VIN number and required part number. Requests without any one of these pieces of information will not be filled. Please send the email to: directshipment@bmwna.com with Recall in the subject line.

11 51 7 629 913	324 vehicles affected, part is blocked from ordering
11 51 7 629 914	149 vehicles affected, part is blocked from ordering
11 51 7 629 915	153 vehicles affected, part is blocked from ordering
11 51 7 629 917	2,273 vehicles affected, part is blocked from ordering

The below part number does not require an email request. We will be pushing 5 pieces to each dealer today, the parts should be shipped to you on 11/29/2011. Normal ordering process for this part can commence in the afternoon of 11/29.

11 51 7 629 916 29,183 vehicles affected, 5 units will be pushed to every dealer, part will be open for normal ordering processes.

RE: Auxiliary Pump Ordering Procedure

We have received many emails with the incorrect part number for the supplied VIN number.

Please ensure you research [the VIN via EPC](#) prior to sending your email orders, this will assist us in expediting the parts to your dealership.

This applies only to those four part numbers that are emailed to directshipment@bmwna.com.

As previously mentioned part number 7 629 916 does not need to be emailed, you may order on your own via normal channels.

Thank you in advance for your support –
