Mfr's Report Date: October 24, 2012

NHTSA Campaign Number: 12V-524

Components:

FUEL SYSTEM, OTHER:FUEL FILTER

Potential Number of Units Affected: 6,520

Problem Description:

Mitsubishi Fuso Truck of America (MFTA) is recalling certain model year 2012-2013 FEC52, FEC72, FEC92, and FGB72 trucks. The fuel line may disconnect from the fuel filter head due to an improperly machined connector.

Consequence:

As the fuel line loosens and detaches it may leak fuel. Leaking fuel in the presence of an ignition source such as high temperature components may increase the risk of a fire.

Remedy:

MFTA will notify owners, and dealers will inspect and replace the affected fuel filter head, free of charge. The safety recall is expected to begin on December 3, 2012. Owners may contact MFTA at 1-856-467-4500.

Notes:

MFTA's recall campaign number is C1005710. Owners may also contact the National Highway Traffic Safety Administration's Vehicle Safety hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded of the following requirements:

You are required to submit a draft owner notification letter to this office no less than five days prior to mailing it to the customers. Also, copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
