Re: Airstream
Defect and Non-Compliance Report

Dear Ms. Lewis:

Airstream has decided that certain Airstream brand travel trailers fail to comply with the requirements of 49CFR part 567, "Certification" and 49 CFR part 571.110 in the United States.

- A. Recall Population and Vehicle Identification. The recall population includes the following product model manufactured by Airstream.

| <u>Model</u> | <u>Model Years</u> |
|-------------------------------|--------------------|
| 27' International Eddie Bauer | 2012-2013 |

The total number of vehicles subject to this recall campaign is 12.
These vehicles were manufactured between February 2012 and April 2012.

- B. Description of Defect. The vehicles subject to this recall campaign were manufactured with the incorrect information on the Federal Identification Tag and Tire and Loading Information Label. The labels list the wrong tire and rim size. The size should be ST225/75R16E tires with 80 psi/552 Kpa tire pressure and 16 X 6 J rims and was listed as ST225/75R15D tires with 65 psi/448 Kpa tire pressure and 15 X 6JJ rims. During replacement of the tires, a consumer could install the incorrect tire potentially leading to property damage.
- C. Basis for Determining that a Defect Exists. The non-compliance was discovered as a result of a dealer notification. The dealer notified Airstream on April 24, 2012 of the issue when they had a customer's vehicle come in for repair. Upon further investigation at the manufacturing facility, it was discovered the incorrect tire information was placed in the master file for that model. A review of the information stored on file for each vehicle led to the determination of the beginning and ending production range.

- D. Remedying of Defect. The remedy is to send new Federal Identification Tag and Tire and Loading Information Labels to the owners to place over the current labels on their trailers. This will be done at no charge to the vehicle owner.
- E. Owner Notifications. Airstream will begin notifying owners immediately pending NHTSA approval. An owner's letter is attached for approval.
- F. Quarterly Reporting Requirements. Airstream will be filing quarterly reports in connection with this recall campaign.
- G. Campaign Number. Airstream does not have an internal campaign number for this recall. Airstream will use the recall campaign number assigned by NHTSA.

The enclosed information should comply with the NHTSA regulations and satisfy the obligations of Airstream with respect to this recall campaign. If you need any additional information regarding the participation of Airstream in this recall campaign, please feel free to contact David Mihalick at 937-596-6849, Ext. 7363. or Terry Coleman, Airstream, at 937-538-1268.

Sincerely,

David M. Mihalick
