**Identify the approximate percentage of the production of all the recalled models manufactured by your company between the inclusive dates of manufacture provided above, that the recalled model population represents. For example, if the recall involved Vehicles equipped with certain items of equipment from January 1, 1996 through April 1, 1997, then what was the percentage of the recalled Vehicles of all Vehicles manufactured during that time period.**

100%

**II. Identify the Recall Population**

**3. Furnish the total number of vehicles recalled potentially containing the defect or noncompliance.**

<b>Model</b>	<b>Year</b>	<b>Number of Vehicles Potentially Involved</b>
1199 Panigale (All Versions)	2012	375

**Total Number Potentially Affected by the Recall:**

375

**4. Furnish the approximate percentage of the total number of vehicles estimated to actually contain the defect or noncompliance:**

1%

**Identify and describe how the recall population was determined--in particular how the recalled models were selected and the basis for the beginning and final dates of manufacture of the recalled vehicles:**

During production quality control, it was discovered that a non-compliant screw retaining the swingarm to the rear suspension linkage was installed on a number of motorcycles instead of the correct screw.

**III. Describe the Defect or Noncompliance**

**5. Describe the defect or noncompliance. The description should address the nature and physical location of the defect or noncompliance. Illustrations should be provided as appropriate.**

A non-compliant screw retaining the swingarm to the rear suspension linkage was installed instead of the correct screw.

**Describe the cause(s) of the defect or noncompliance condition.**

The cause of non-compliance is due to a mistake made in the factory where during production, the incorrect screw was installed.

**Describe the consequence(s) of the defect or noncompliance condition.**

A possible consequence of the non-compliant condition can lead to detachment of the linkage pushrod from the swingarm resulting

in catastrophic suspension collapse and will adversely affect the ability to safely handle and maneuver the motorcycle. This could result in potential damage to the motorcycle, increased risk of crash, and potential hazard to the rider.

**Identify any warning which can (a) precede or (b) occur.**

None

**If the defect or noncompliance is in a component or assembly purchased from a supplier, identify the supplier by corporate name and address.**

N/A

**Identify the name and title of the chief executive officer or knowledgeable representative of the supplier:**

N/A

**IV. Provide the Chronology in Determining the Defect/Noncompliance**

*If the recall is for a defect, complete item 6, otherwise item 7.*

**6. With respect to a defect, furnish a chronological summary (including dates) of all the principle events that were the basis for the determination of the defect. The summary should include, but not be limited to, the number of reports, accidents, injuries, fatalities, and warranty claims.**

**7. With respect to a noncompliance, identify and provide the test results or other data (in chronological order and including dates) on which the noncompliance was determined.**

During production quality control, it was discovered that a non-compliant screw retaining the swingarm to the rear suspension linkage was installed on a number of motorcycles instead of the correct screw.

**V. Identify the Remedy**

**8. A description of the manufacturer's program for remedying the defect or noncompliance. This program shall include a plan for reimbursing an owner or purchaser who incurred costs to obtain a remedy for the problem addressed by the recall within a reasonable time in advance of the manufacturer's notification of owners, purchasers and dealers, in accordance with §573.13 of this part. A manufacturer's plan may incorporate by reference a general reimbursement plan it previously submitted to NHTSA, together with information specific to the individual recall. Information required by §573.13 that is not in a general reimbursement plan shall be submitted in the manufacturer's report to NHTSA under this section. If a manufacturer submits one or more general reimbursement plans, the manufacturer shall update each plan every two years, in accordance with §573.13. The manufacturer's remedy program and reimbursement plans will be available for inspection by the public at NHTSA headquarters.**

An authorized Ducati dealership will inspect the retaining screw and if found to be non-compliant, shall replace it with the correct screw at no cost to the customer for parts and labor.

**9. Furnish a description of the manufacturer's remedy for the defect or noncompliance. Clearly describe the differences between the recall condition and the remedy.**

The manufacturer's remedy and recall are the same.

**Clearly describe the distinguishing characteristics of the remedy component/assembly versus the recalled component/assembly.**

The correct screw (PN 779150141A) has a different head shape and length. The length of the correct screw is 46 mm versus the non-compliant screw which is 55 mm.

**Identify and describe how and when the recall condition was corrected in production. If the production remedy was identical to the recall remedy in the field, so state. If the product was discontinued, so state.**

The remedy is identical.

**VI. Identify the Recall Schedule**

**10. Furnish a schedule or agenda (with specific dates) for notification to other manufacturers, dealers/retailers, and purchasers. Please, identify any foreseeable problems with implementing the recall.**

A Ducati North America recall bulletin is to be published to the networks through an established communication process therefore no implementation issues are anticipated.

## **VII. Furnish Recall Communications**

**11. Furnish a final copy of all notices, bulletins, and other communications that relate directly to the defect or noncompliance and which are sent to more than one manufacturer, distributor, or purchaser. This includes all communications (including both original and follow-up) concerning this recall from the time your company determines the defect or noncompliance condition on, not just the initial notification. A DRAFT copy of the notification documents should be submitted to this office by Fax (202-366-7882) or by E-Mail to [RMD.ODI@dot.gov](mailto:RMD.ODI@dot.gov) for review prior to mailing.**

**Note that these documents are to be submitted separately from those provided in accordance with Part 579.5 requirements.**
