Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Jayco, Inc. (“Jayco” or the “Company”) is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.6(c)(2)

Affected vehicles are 2012 & 2013 Jay Flight Swift SLX Travel trailers.

The affected vehicles were manufactured between October 24, 2011 and July 3, 2012.

The recall population was determined from the manufacturing records for the Company’s manufacturing plant in Twin Falls, Idaho, which produced the affected recreational vehicles.

573.6(c)(3)

A total of 300 vehicles are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

Model year 2012 & 2013 vehicles with a starting VIN of 1UJBJ0AG0C7 and ending with 1UJBJ0AJXD7 .

573.6(c)(4)

Jayco is recalling 100 percent of the affected vehicles identified in the scope.

573.6(c)(5)

Jayco has decided that certain 2012 & 2013 Jay Flight Swift SLX Travel trailers may have oversized bearings installed in the axle. This may result in excessive movement of the wheel hub which can cause the bearing to become overheated and worn.

573.6(c)(6)

On July 2, 2012 Jayco received a complaint about the axle under a 2012 Jayco Jay Flight Swift SLX travel trailer. The axles on units still at Jayco were inspected and it was determined that four specific axle lot numbers are suspect.

573.6(c)(8)

The remedy for the affected recreational vehicles is to replace the axle bearings with the proper size bearings.

Copies of the repair instructions, dealer notification letters, and owner letters will be provided to the agency within 10 business days. Jayco is contacting all dealers and retail owners of the affected vehicles. Upon notification Jayco is prepared to begin dealer notification within 5 business days after approval, and to owner's ten business days subsequent to dealer notification.

Thank you for your assistance,
