Safety Defect and Noncompliance Report Guide for Vehicles
PART 573 Defect and Noncompliance Report

12V-418
5 Pages

On August 20, 2012, Lippert Components, Inc. d/b/a Extreme Trailers decided that a defect which relates to motor vehicle safety exists in the motor vehicles listed below, and is furnishing notification to the National Highway Traffic Safety Administration in accordance with 49 CFR Part 573 Defect and Noncompliance Reports.

Date this report was prepared: August 24, 2012

I. Manufacturer and Designated Agent

Manufacturer's corporate name:

Lippert Components, Inc., 2703 College Avenue, Goshen, IN 46528

Vehicle brand:

Extreme Trailers

Identify the corporate official, by name and title, whom the agency should contact with respect to this recall.

Telephone Number: 574-312-6113 **Fax No.:** 574-312-6113 **E-mail:** slewis@lci1.com

Name and Title of Person who prepared this report.

P. Shawn Lewis
General Counsel

Signed:

II. Identify the Vehicle Models Involved in the Recall

Identify the Vehicles Involved in the Recall, for each make and model or applicable vehicle line (provide illustrations or photographs as necessary to describe the vehicle), provide:

Make: Extreme

Model Years Involved: 2011, 2012

Models: 28' Fusion, 00 Donzi 26' ZX, DCB F-26, Bennington 250 Grand Maj., Premier 260 Grand Isle, 250 Grand Majestic, 28' Heat, 27' Lightning, 29' Deck, 25' Rage, 28SS, 33' Daytona, 2011 Nautique 200, Wake VTX, Wake 23 LSV, Wake 247 LSV, Miscellaneous Tire and Wheel assemblies (See attached)

Production Dates: Beginning: 2/2011

Ending: 2/2012

VIN Range: Beginning: Non-sequential VIN numbers

Ending:

Vehicle Type: Boat Trailer

Body Style: Open

Descriptive information which characterizes/distinguishes the recalled vehicles from those model vehicles not included in the recall:

The above trailers and miscellaneous tire and wheel assemblies (the “affected vehicles”) contain one of the following trailer wheels supplied by Carlisle Transportation Products (“CTP”):

“Black Rock” Intruder Series Trailer Wheels
Part Numbers 910B561235, 910B566035, 910B668035, 910S561235
910S566035, 910S668035

“Black Rock” Intrepid Series Trailer Wheels
Part Numbers 921MB451232, 921MB561235

The affected vehicles have incorporated the above described component trailer wheel assemblies that have been recalled by Carlisle Companies Incorporated (Safety Recall 12E-011).

Identify the approximate percentage of the production of all the recalled models manufactured by your company between the inclusive dates of manufacture provided above, that the recalled model population represents.

100% of those listed on the attached spreadsheet.

III. Identify the Recall Population

Furnish the total number of vehicles recalled potentially containing the defect or noncompliance.

25 boat trailers and between 117 and 119 wheel and tire assemblies

Furnish the approximate percentage of the total number of vehicles estimated to actually contain the defect or noncompliance:

Pursuant to the Part 573 Defect Information Report submitted by Carlisle Companies Incorporated on March 21, 2012, 100% of the trailers and wheel and tire assemblies described on the attached spreadsheet contain a defect.

Identify and describe how the recall population was determined--in particular how the recalled models were selected and the basis for the beginning and final dates of manufacture of the recalled vehicles:

The affected vehicles were determined from the Part 573 Defect Information Report submitted by Carlisle Companies Incorporated on March 21, 2012 and cross referencing the listed wheels with production records.

IV. Describe the Defect or Noncompliance

Describe the defect or noncompliance. The description should address the nature and physical location of the defect or noncompliance. Illustrations should be provided as appropriate.

The affected vehicles contain wheels which were supplied by CTP which may not be tightened to proper torque requirements during the mounting process. This condition could allow the lugs to become unseated, leading the wheel to separate and increasing the risk of an accident.

Describe the cause(s) of the defect or noncompliance condition.

According to CTP, the wheels were manufactured with machined dimensions for the application of a center cap and the application of steel lug inserts that were not controlled to the required blue print specifications.

Describe the consequence(s) of the defect or noncompliance condition.

A wheel could separate from the trailer.

Identify any warning which can (a) precede or (b) occur.

Information on any warning is unknown at this time since no complaints have been received by Lippert Components.

If the defect or noncompliance is in a component or assembly purchased from a supplier, identify the supplier by corporate name and address.

Carlisle Transportation Products
13925 Ballantyne Corporate Place
Suite 400
Charlotte, NC 28277

Identify the name and title of the chief executive officer or knowledgeable representative of the supplier:

Michael L. Roberson, Vice President and Assistant General Counsel

V. Provide the Chronology in Determining the Defect/Noncompliance

With respect to a defect, furnish a chronological summary (including dates) of all the principle events that were the basis for the determination of the defect. The summary should include, but not be limited to, the number of reports, accidents, injuries, fatalities, and warranty claims.

- Carlisle Companies Incorporated submitted its Part 573 Defect Information Report to NHTSA on March 21, 2012

- NHTSA issued notice of Safety Recall 12E-011 to Lippert Components at its California location

VI. The Remedy Program and Schedule

Furnish a description of the manufacturer's remedy for the defect or noncompliance. Clearly describe the differences between the recall condition and the remedy.

CTP will repair or replace affected wheels free of charge, including any mounting or dismounting.

Furnish a schedule or agenda (with specific dates) for notification to other manufacturers, dealers/retailers, and purchasers. Please, identify any foreseeable problems with implementing the recall.

Lippert Components is coordinating with CTP to notify all dealers and locate any retail purchasers to notify of the recall. CTP will directly, or through its representatives, repair or replace all affected wheels free of charge, including any mounting or dismounting. A mailing, in accordance with 49 CFR Part 573, will commence as soon as the Agency gives its approval of the attached recall communications.
