Dear Sir or Madam:

Pursuant to 49 CFR Part 573, Starcraft RV (“Starcraft” or the “Company”) is submitting this report to NHTSA concerning a recall campaign, which is being voluntarily initiated. Specific information is as follows:

573.6(c)(2)

Affected vehicles are 2013 Starcraft Autumn Ridge AR-One Travel Trailers.

The affected vehicles were manufactured between September 6, 2012 and October 17, 2012.

The recall population was determined from the manufacturing records for the Company’s manufacturing plant in Topeka, Indiana, which produced the affected recreational vehicles.

573.6(c)(3)

A total of 22 vehicles are subject to this recall. Specific Vehicle Identification Numbers (VIN) are as follows:

Model year 2013 vehicles with a starting VIN of 1SABS0BN0D28X5062 and ending with 1SABS0BNXD28X5070.

573.6(c)(4)

Starcraft is recalling 100 percent of the affected vehicles identified in the scope.

573.6(c)(5)

Starcraft has decided that certain 2013 Starcraft Autumn Ridge AR-One Travel Trailers have wire connections in the load center that may prevent the wires from being tightened properly. A loose electrical wiring connection could cause excessive heat which could lead to fire, injury, or death.

573.6(c)(6)

During the course of routine inspection, it was discovered that some of the wires in the power box were loose. There have been no complaints or warranty claims related to this issue.

573.6(c)(8)

The remedy for the affected recreational vehicles is to relocate specific wires in the load center in order to allow the wires to be sufficiently tightened at their connections.

Copies of the repair instructions, dealer notification letters, and owner letters will be provided to the agency within 10 business days. Starcraft is contacting all dealers and retail owners of the affected vehicles. Upon notification Starcraft is prepared to begin dealer notification within 5 business days after approval, and to owner's ten business days subsequent to dealer notification.

Thank you for your assistance,
