Dear Ms. Lewis:

RE: 12V-559

Winnebago Industries, Inc. submits the following addendum to our November 29, 2012 letter regarding Winnebago Industries® Recall 127. The total number of vehicles containing the defect decreased by 484 from the number reported in the November 29, 2012 letter. Included in the November 29, 2012 total were 2010 model year Winnebago View® and Itasca Navion® motorhomes; 2010 model year Winnebago View and Itasca Navion motorhomes are not affected and were inadvertently included. The correct models and model years affected are described below.

Paragraphs 2 and 3 should now read as follows and the numbered paragraphs below correspond to those found at Part 573.6(c).

2. The motor vehicles potentially containing the defective component are certain:

2009 - 2013 model year Winnebago® models: Era® motorhomes.
2010 - 2013 model year Winnebago Via® and Itasca Reyo® motorhomes.
2011 - 2013 model year Winnebago View and Itasca Navion motorhomes.

These motorhomes were manufactured November 13, 2007 through August 20, 2012. The vehicles were identified using production records showing models and VINs.

3. The total number of vehicles potentially containing the defect is 2,495; 35 vehicles were repaired prior to shipment from the factory and 2,460 units require field repair.

Should you have questions regarding this information, please contact the undersigned.

Sincerely,

Ronald W. Post
