To: Valued Timken Customer

Reference: Timken Part Number HA599467

Applications:

2002-2005 4X2 Non-ABS Jeep Liberty

2002-2005 4X4 Non-ABS Jeep Liberty

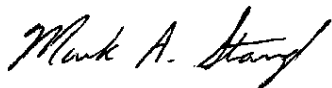

Timken recently determined that Part Number **HA599467** has been listed in our catalog as the hub part number for both the 4X2 Non-ABS 2002-2005 Jeep Liberty and the 4X4 Non-ABS 2002-2005 Jeep Liberty. This part number is only applicable for the 4X4 vehicles. If Part Number **HA599467** is installed in error on the 4X2 Non-ABS 2003-2005 Jeep Liberty, there is no axle nut to retain the hub unit bearing and the wheel will not be secure and will come off, creating a risk of death or serious injury.

Your current inventory must be returned to Timken. Do not sell any of your current inventory of **HA599467**, whether for the 4X4 or the 4X2 version of the 2002-2005 Non-ABS Jeep Liberty. Please contact a Timken customer service representative for return instructions and your assigned RGA number. See attached Bulletin for more details and phone numbers. Under Federal Law, you may not sell these hub units.

We are making Part Number **HA599467** obsolete and are launching two new part numbers, HA590458 for the 2002-2005 4X4 Non-ABS Jeep Liberty and HA590452 for the 2002-2005 4X2 Non-ABS Jeep Liberty.

Quality is a core value for The Timken Company, we regret this inconvenience, and appreciate your attention and assistance to promptly returning this product.

Sincerely,

The Timken Corporation
