IMPORTANT: Safety Notice SAFETY RECALL – 11V-516

Dear Final Stage Manufacturer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Spartan Motors Chassis, Inc. has decided a defect or non-compliance which relates to motor vehicle safety exists in certain recreational vehicle chassis assembled by Spartan Motors Chassis, Inc. equipped with a 2791-NN2E-001, 2791-NN2F-001, 2791-NN2E-002, or 2791-NN2F-002 part numbered Electronic Control Module.

What Products Are Affected?

Certain recreational vehicle chassis identified as APG, K2, K3, MG, MM, or NG equipped with the aforementioned part numbers.

What is the problem?

Recreational vehicle chassis equipped with the aforementioned part numbers may exhibit an inadvertent increase in vehicle speed after the vehicle's cruise control speed is set. When the brake is applied and released, the cruise may resume and the vehicle speed may continue to increase. However, when the cruise control function is in the "Off" position, this **will not** occur.

What are the risks to motor vehicle safety?

This may occur without warning and result in a vehicle crash.

What should the final stage manufacturer do?

On the attached document, you will find a list of chassis, which may have the suspect control modules Spartan Chassis has sold to you. If you agree the identified chassis, contains a safety defect, you are reminded of your responsibility to notify the National Highway Traffic Safety Administration (NHTSA) in accordance with 49CFR573. It is a violation of federal regulation to sell a vehicle subject to a safety recall without the recall first being remedied.
