Important

**Subject:** Upcoming Recall -- Battery Cable Insulated Connector  
for 2004-2010 BMW 5 Series, 6 Series

The previously announced Recall to inspect and correctly secure the insulated bulkhead connector of the positive battery cable in the vehicle's trunk is planned to be released on April 30, 2012.

A Service Information bulletin will be published at that time with details on the repair procedure. Please do not order any parts at this time. A small, initial supply of parts will arrive at each center during the week of April 30. This initial supply should be used for critical cases.

Affected vehicles will be identified with the Key Reader or in the DCSnet Warranty Vehicle Inquiry on April 30, 2012.

Customer letters will be mailed according to a staggered mailing, over 4 weeks, beginning the week of April 30, 2012.

Thank you for your cooperation,

BMW of North America, LLC
